

e-Lottery Makes Big Impact

e-Lottery continues to increase its appeal and popularity across the world with members in more than 130 countries and the numbers are rising incessantly.

There has been a major surge in activity in Australia as well as in Europe and other countries, particularly since the launch of the EuroMillions lottery last year.

The consistent and effective promotion of both the UK National Lotto and EuroMillions through the unique e-Lottery marketing approach has already proved a huge winner.

Enthusiastic and committed members have also played a vital role in achieving the highly encouraging level of international success so far.

Significant growth in membership Down Under was assisted by the inspirational leadership of New South Wales-based Tim Clarke, whose team responded positively to the example he set and his ongoing support.

Of course, the attraction of multi-million pound or dollar lottery jackpots have stimulated player participation.

When Tim joined Virtual World Direct back in 2003 he was surprised 'how easy it was to play the UK Lotto for so little cost and was convinced it had to be a winner.'

When the EuroMillions was launched members in his group did not realise the potential of the jackpot because the size of it was not what they were used to in Australia and when it went through the roof at \$104 million Australian dollars memberships shot up 60%.

'I am very confident,' Tim explained, 'that with consistent promotion and communication with members we are establishing a great reputation in Australia that the e-Lottery is the most exciting and secure business to embrace.'

'It's only a hop, skip and a jump to the e-Lottery International Convention in the UK on September 24. Of course, I will be there. I wouldn't miss it for the world and I will have two guests

attending from Australia, who are keen to experience the wealth of information and excitement. You cannot buy an opportunity like this.'

He added: 'The population in Australia is relatively small compared to most countries and Virtual World Direct is relatively young. The future growth for both is so huge and unstoppable!'

DON'T MISS THE e-LOTTERY INTERNATIONAL CONVENTION!!

It will be the biggest, the best, the most dynamic and informative Virtual World Direct business get-together ever.

It's the first e-Lottery International Convention which will unveil and launch a number of exciting developments at the prestigious and renowned Motorcycle Museum and Conference Centre in Birmingham, UK on the 24th of September, 2005.

Passes available from www.vwdprojectwildfire.com

Whether you're a team leader or a relative newcomer, this is one event you can't afford to miss. You will be staggered by a strategy ingeniously created to make the e-Lottery the No.1 name in its field, not just in Europe but worldwide.

PROGRESSIVE

Already members from abroad and across the UK are purchasing tickets to ensure they have seats at an event that will be a real eye opener, the beginning of a fresh and progressive approach towards playing the lottery internationally.

One thing is certain, all those who attend the convention will leave with information and know-how that will make a major impact on their business building capability and, consequently, on their financial earnings potential.

Virtual World Direct co-founder Tom Brodie emphasized: 'Even if a member only has two people in his group it is important that he attends the convention with them. Everybody should keep in touch and be aware of change, otherwise they could slip back and be denied benefits that can significantly improve lifestyles.'

VITAL

'If you haven't got a group, then it's vital you attend the convention to learn how to build one,' added Tom.

Looking ahead, the message is simple and clear. Book your convention seat NOW and avoid disappointment.

HANDLING MONEY MADE EASY

How would you like to be able to receive your commission and winnings and access as well as withdraw cash in the same day? Well, with VWD, you can now!

The system is run online by Money Bookers UK and is designed to receive and send money worldwide.

That's a major benefit and is available to e-Lottery members. All you have to do to take advantage of this simple, easy

to understand service is set up a Money Bookers account through your VWD website. Simply go to the 'My Details' section and click on 'Commissions and Winning' to process an account application. As soon as the account is active Members Support can then start paying your due commission and winnings directly into the account, from which you can transfer the cash to either your debit or credit card for withdrawal the same day.

VWD Lotto Winners £3,500 Better Off

Here's what some of them had to say.

Justin Snape (England) : I've received an incredible cheque for over £3,500, it couldn't have come on a better day because it was my birthday.

Adrian Disley (England) : I play the lottery like many people do. On my own I would have won £57.00. But I and the other winning VWD Syndicate members won £3,500 each. The e-Lottery is certainly a smarter way to play.

Norman Perrium (England) : I've won the lottery 30 times and my biggest win to-date is over £3,500 and I'm thrilled to bits.

Richard Morris (Wales) : I won £3,500. VWD makes it so much easier for us to win and we have 88 chances every week and it only costs £5.00 a week.

Steve Cuthbert (Wales) : I've been with Virtual World Direct since its launch three years ago. Recently the first e-Lottery syndicate to be set up netted £171,666. I was part of another VWD syndicate which previously won £139,000. That adds up to more than £310,000 and I've had shares worth a total of over £6,000 and its cost just £5.00 a week.

Steve Porter (England) : I played the lottery as an individual and won just £57.00. On the same day, playing as a VWD syndicate member and using the same numbers, I won £7,000. Is that a result?

'A Dream Come True'

Susan Ferguson, Scotland: I have only recently joined VWD and when I won £3,500 I couldn't believe it – it was like a dream come true. The money helps clear my

credit card debt and to enjoy a summer holiday in Greece. I am recommending my friends to VWD and hope they enjoy the success I have.

Ian Lloyd-Davies, Wales: I joined VWD early on with the intention of introducing five people so that I would have multiple chances of winning the lottery at no cost

to myself. I did this and received small but welcome cheques on a regular basis. Recently my syndicate won a six-figure Lotto cash prize and my share was £3,508. My decision to stick with VWD is one of my better moves in life!

Anne Macleod Crisp, Spain: I can't find the words to praise the VWD set up enough. You are professional, friendly on the phone and answer emails promptly. You are a pleasure to deal with and the website is user friendly. You deserve every success.

Patrick Carpenter, Belgium: I've always been a bit suspicious about games and lotteries. I frequently played the Belgian Lottery and never won anything. A few weeks ago I read on the web about the EuroMillions Lottery and discovered the e-Lottery system. Eight days later I received a letter from VWD with a cheque of £3,500 inside. Now let's cross a million fingers.

Paul Veverka, Scotland: Having been only VWD for three years, I am constantly amazed at what I have received for my £5.00 a week. I've now banked over £7,000 in

prize money and received over £26,000 in commissions. Winning over £3,500 recently was brilliant. As soon as the cheque arrived I bought an engagement ring and my girlfriend agreed to marry me. VWD is helping me realise all my dreams.

Andrew Wallace, England: It was my sixth day of coping with shingles when I turned my computer on to be greeted with a congratulations message from VWD. My syndicate had won £171,666 on the UK Lotto with individual shares amounting to £3,508 each. It took a little time for it to sink in. I have since become an affiliate member.

James Holden, England: As a web designer and part-time salesman, I wanted to find a business that I could build alongside my web work and finish being a salesman by matching the income in that job. After being a member of VWD for nearly two years I have now more than achieved that goal and ceased being a salesman. The support from VWD has been outstanding. Ever heard the saying 'There must be another Way?' Well there is. It's called Virtual World Direct!

James Bruce, Scotland: This is the fifth win I have had in two and a half years with VWD - £3,440 more than I have won in 10 years playing on my own. I see the next 10 years being superb. We have just scratched the surface.

VWD's £171,666

LOTTO WIN!

"e-Lottery the smarter way to play"

49 Virtual World Direct syndicate members are on a high after pocketing over £3,500 each. The welcome windfalls were the result of scooping £171,666 on the UK Lotto.

The lucky syndicate, which matched five main numbers plus the bonus ball, was the first to be set up after the launch of VWD three years ago.

It's certainly worth noting that if the elated members had played the Lotto the usual way as individuals they would have received just £57.00 each, which convincingly proves that the e-Lottery system is the smarter way to play.

VWD co-founder Tom Brodie said: 'This latest big win has reinforced members' commitment, confidence and belief that the system actually does give participants a better chance of winning the lottery.'

'Since the launch of the e-Lottery three years ago we've recorded wins in every UK draw. The value has varied but every member has been a winner and many of them have even increased their good fortune several times over.'

'Virtual World Direct has already grown into a global enterprise and during our last four-week business cycle membership increased by 45%.'

HOW TO BEAT LOTTERY FRAUDSTERS

Fraudulent activities on the Internet are increasing worldwide and a disturbing menace which can cost unsuspecting victims dearly in lost funds.

Lottery scam emails are frequently circulated with the aim of collecting personal information relating to identification and financial account details, etc.

Virtual World Direct receives details of many dubious emails from members and the public from all over the world. You can be assured that these unsolicited

communications have nothing to do with VWD. Another reassuring fact is that our website and systems are secure – protected by the latest sophisticated technology and appropriate security.

However, you must always be aware of the existence of fraudsters on the Internet - cunning operators completely focused on financial gain and their tactics vary. So if you ever have any doubts about an email – delete it.

If you ever have concerns about lottery scams don't hesitate to contact us. We are always here to help.

The following are a few suggestions on how to protect yourself.

The rate of growth has certainly been spurred on by the EuroMillions Lottery, launched only last year yet already recognised as the biggest game of its kind in the world with a recent, enticing jackpot of £55 million GBP – the equivalent of about €79.8 million euros.

VWD has been promoting worldwide both the UK Lotto and the EuroMillions – almost since its launch – alongside the e-Lottery.

Many members play both lotteries because of the tremendous financial potential generated together with a tempting global business building incentive.

1. Never provide personal or financial information.

2. Don't be drawn into making an 'up front' payment for a lottery prize that probably doesn't exist.

3. Beware of links which could lead you to so-called 'spoofer sites' set up to extract information from you, like updating personal records which could provide the means to reach or even access your account.

4. Whenever you want to discuss your account with us, we will always verify your identity by asking specific security questions. Our customer care team do not have access to your full password.
